

Sculptural Glass Doors Inc is a small artisan based company located in the Pacific Northwest. You can expect to receive personal attention throughout the process from sale through production to delivery. We sell direct and build to order only. Our handcrafted doors are shipped nationwide at low flat rates. For more in-depth information, please visit SculpturalGlassDoors.com.

Product Description / specifications:

Fully tempered insulating glass unit, with ClearCast™ Glass exterior face, set in an unfinished, all wood door, stile and rail construction, mortise and tenon joinery, with Premium Wood Veneer over a solid engineered stave core. All glass is fully tempered and meets architectural safety standards ANSI Z97.1 and 16 CFR 1201 for tempered glass products.

Insulating glass specifications: 5/8" thickness, 1/4" warm-edge super spacer, dual seal, 6mm tempered ClearCast™ Glass exterior, 4mm flat tempered clear glass interior, Low-E (#3 surface) available as an optional upgrade.

Suggested Rough Opening specs for pre-hung exterior doors: Add 2" to door width and 2-7/8" to height.
